Partition\_A

Partition\_B

Remove partitions A & B

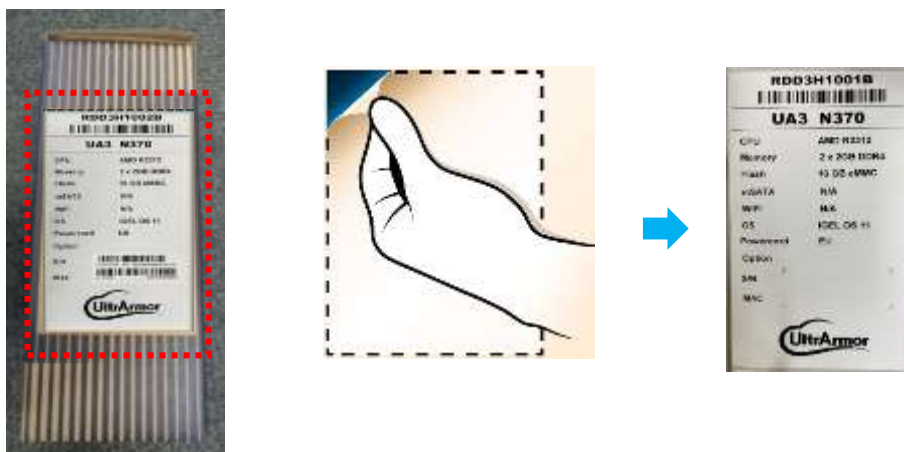

Push down both sides of the card board carrier then remove the machine from the carrier

## 5. Break Down Accessory Box

\* The gift box label can be easily peeled off by hand, without tool needed.

## Regulatory Statement on Packaging Recycling.

Royal Decree 1055/2022, dated 27 December, concerning packaging and packaging waste ("RD 1055/2022"), introduced significant amendments to the Spanish regulatory framework governing packaging and packaging waste. These changes aim to advance the implementation of a circular economy in Spain. The primary innovations of RD 1055/2022 are centered on the prevention of packaging waste generation. Additionally, the decree incorporates updates pertaining to the design and labeling of products and their packaging.

Royal Decree 1055/2022 came into effect on 29 December 2022, with the exception of the labeling and information requirements outlined in Article 13, which will take effect on 1 January 2025. This regulation stipulates that by 2025, household packaging must include clear indications of the appropriate waste fraction or container for disposal of the packaging waste.

## Guidance on the proper disposal of UA3 N370 packaging

Packaging Component	Image	Waste Fraction	Collection Container
PE Bag		Plastic	
Gift Box		Paper	
Card board machine carrier			
Card board Partition A & B			
Accessory Box			
Cushion Paper A & B
